

European Conference on Energy Transition

24, 25 & 26th June 2025

Ville et Eurométropole de **Strasbourg**

ENERGY: A COMMON GOOD!
FROM REGIONS TO EUROPE.

13TH > 23RD JUNE 2025
A RICH PROGRAMME
FOR OFF SITE EVENTS

24TH & 25TH JUNE 2025
CAREERS FAIR
ON ENERGY TRANSITION

Venues

For this 26th edition, the conference will take place in three different venues:

24th & 25th JUNE Palais de la Musique et des Congrès

Since its restructuring in 2016, and thanks to its contemporary architecture and high-tech equipment, this venue hosts a wide range of cultural events, concerts and international conferences.

STRASBOURG'S CITY CENTRE IS JUST A FEW MINUTES AWAY BY TRAM AND MANY RESTAURANTS, CAFÉS AND HOTELS ARE CLOSE TO THE THREE VENUES.

25th JUNE - GALA EVENING Maillon theatre

Inaugurated in November 2019, close to the Palais de la Musique et des Congrès, this new theatre building offers a large, friendly reception hall combining greenery and wood, an open patio and modular spaces. Designed as a place for experimentation, it brings together theatre and contemporary creation.

26th JUNE European Parliament

For the closing plenary session of the event, delegates will have the opportunity to sit in the Hemicycle of the European Parliament, where European Union legislation is debated and voted.

Editorial

Jeanne BARSEGHIAN
Mayor of the city of Strasbourg

Pia IMBS
President of the Eurométropole of Strasbourg

Danielle DAMBACH
Vice president of the Eurmétropole of Strasbourg

Ladies and Gentlemen, Dear Partners,

The City and the Eurométropole of Strasbourg are delighted to be hosting the 26th European Conference on Energy Transition on 24th, 25th and 26th June 2025. Our local authorities are joining the permanent organising committee alongside the Communauté urbaine de Dunkerque, Bordeaux Métropole, Dijon Métropole and the French Environment and Energy Management Agency (ADEME).

Thanks to the support and encouragement we received, we were able to demonstrate collectively our region's commitment to climate transition and the organisation of this major European event.

We will therefore be keen to highlight our cross-border and European cooperation, and we will make sure to create the necessary framework of collaboration for its success.

This recognition underlines the commitment of our city and of the Eurométropole to energy transition. At a time when the challenges of climate change, energy sovereignty and the cost of energy are becoming ever greater we are determined to work with all our partners, whom we thank for their commitment and determination in implementing energy transition.

This 26th edition will be built around the theme of 'Energy, a common good!' and will be focusing on the issues of citizen involvement and social justice which are essential if energy transition is to succeed.

We look forward to welcoming you in June 2025.

The event

An unmissable event for the last 26 years!

The 26th European Conference on Energy Transition will take place in Strasbourg from the 24th to the 26th of June 2025.

This Conference is the place to be if:

You have a role in regional energy transition;

You are convinced that it is by sharing ideas, experiences and good practices that we can implement energy transition;

You know that we need to act quickly in all areas;

You understand that the regional scale is essential for implementing transitions;

You have realised that we cannot do anything without involving local residents and stakeholders;

You believe that we can work effectively in a friendly, good-humoured atmosphere...

So welcome to the European Conference on Energy Transition, you're in the right place!

3 days to meet, exchange ideas, inspire one another and achieve collective success regarding regional and local energy transition!

- Plenary conferences led by experts and key speakers to discuss the current major issues of energy transition.
- A wide-ranging programme of workshops, developed in collaboration with European partners committed to energy transition, to make the Conference a true laboratory of ideas and a concentration of experience and practical solutions.

20 PLENARY CONFERENCES & ROUND-TABLE DISCUSSIONS

100 WORKSHOPS

10 ON-SITE THEMED VISITS

A CAREERS FAIR ON THE THEME OF ENERGY TRANSITION

AN AREA DEDICATED TO COMBATTING ENERGY POVERTY

AN AREA DEDICATED TO EUROPEAN FUNDS & CROSS-BORDER PARTNERS

Themed visits to discover sustainable energy initiatives implemented by the host region and its cross-border partners.

3 500 PARTICIPANTS

An **area dedicated to innovation in mobility, housing, waste recovery and new energies:** the Energy Transition Village.

3 DAYS TO DEBATE AND MEET EXPERTS OF THE FIELD

And this year, in parallel with the Conference, the **2nd Zero Energy Exclusion Territories (TZEE) Campus** will be taking place.

130 EVENTS

AN 'OFF' PROGRAMME FOR THE CONFERENCE

To enable the general public to familiarise themselves with the theme of energy transition, the City and the Eurométropole are organising an 'OFF' programme that aims to make the invisible visible by showing 'where our energy comes from and where it goes, how it is distributed and consumed...'

Salomé Saqué will be hosting the launch event as part of the European Youth Event at the European Parliament, in the presence of 8 500 young Europeans, to answer the question 'what role and what place for young people in energy transition?'

Numerous other activities will be organised throughout the Upper Rhine region. The detailed programme will be announced in the spring.

From the 13th to 23rd June

What is the European Conference on Energy Transition?

Since 1999, the European Conference on Energy Transition has welcomed over 3500 participants each year - local authorities, scientists and experts in ecological transition, people from the economic or association field, students etc. - for 3 days of debates and networking.

The programme includes more than 130 events: plenary conferences, round-table discussions, interviews, first-hand accounts, workshops and on-site visits to meet, exchange ideas, and inspire each other!

WHAT'S NEW FOR THIS 26TH EDITION?

- Many new European partners
- Ever more innovative workshop formats
- An even richer and more inclusive programme thanks to the area on energy poverty
- A closing plenary session in the Hemicycle of the European Parliament

Who is the European Conference on Energy Transition for?

Elected representatives, researchers, technicians, financial partners, SMB-SMIs, academics, members of associations, NGOs or local energy agencies, entrepreneurs, engineers, you are essential to energy transition.

The European Conference on Energy Transition is organised by :

2nd Zero Energy Exclusion Territories (TZEE) Campus

As part of the national programme 'Territoires Zéro Exclusion Énergétique', an annual event is organised by the association 'Stop exclusion énergétique': the Campus for territories.

Among the laureates of the programme, the City and Eurométropole of Strasbourg will host this second campus at the same time and next to the European Conference on Energy Transition. The aim is to bring together various local players to learn from each other and create a multi-stakeholder community whose concrete expectations are:

- **At the local level** : share how they have implemented the programme in their region (what were local specificities, adaptations, etc.), the progress they have made, difficulties they have encountered, what they consider to be the conditions for success and what future steps they aim to take.

- **At the national level** : involve national partners (ANAH, Capeb, Qualibat, FFB, AFAP...) to listen to in the field stakeholders and support the programme and its ambition to scale up and meet tomorrow's challenges alongside local players.
- Develop the co-construction of a reference tool to share and capitalize on experience.

Careers fair on energy transition

A **careers fair on energy transition** will take place during the Conference to highlight the wide range of jobs in tomorrow's fair and innovative transition.

Professionals themselves will present a **wide range of professions**, requiring different levels of training.

Bringing together **local players** in the fields of **training** and **employment**, as well as professionals from local and national companies, this forum is aimed at pupils, students, jobseekers and professionals seeking a career change.

Welcome Byzance
